

## Covid Symptoms per CDC

COVID-19 affects different people in different ways. Infected people have had a wide range of symptoms reported – from mild symptoms to severe illness.

---

Symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19:

Fever or chills  
Cough  
Shortness of breath or difficulty breathing  
Fatigue  
Muscle or body aches  
Headache  
New loss of taste or smell  
Sore throat  
Congestion or runny nose  
Nausea or vomiting  
Diarrhea

Look for emergency warning signs for COVID-19. If someone is showing any of these signs, seek emergency medical care immediately:

Trouble breathing  
Persistent pain or pressure in the chest  
New confusion  
Inability to wake or stay awake  
Bluish lips or face

Call your medical provider for any other symptoms that are severe or concerning to you.
